

MEMBER'S NEWSLETTER - AUGUST 2019

Despite the weather conditions the course has held up well through winter thanks, so far, to the efforts of Kellan and the volunteers.

- Good progress has been made with the preparations for the new garden next to the 18th green. Thanks to all concerned for the donations and work completed so far
- The club has benefited from the sale of firewood off the course with a lot of logs and dead trees being cut and split
- The club plans another working bee on Sunday, 25th August at 9am to assist in preparing our facilities for a busy spring program. All welcome, many hands make light work!
- In June the club purchased a second hand Toro 7200 Rough –cutter mower to boost our mower capacity. Thanks to those members and friends who donated to the Machinery Fund and to those who have cash-flowed the purchase
- The Garden Fund and the Machinery Replacement Fund remain open for donations. The garden program is gaining momentum and the club needs to purchase specific mower equipment to continue to present the course for all to enjoy
- Due to popular demand and with great enthusiasm, the club is conducting the Grand Final Day Event again this year. Please keep this day free for an extravaganza of fun! Please contact Jillian Chandler or the committee if you are able to assist by donating prizes or help with organizing. Cost for two course lunch is \$35 with lots of great prizes, so bring family & friends for a great day
- New club golf shirts are now available for order from the golf shop or by contacting Heather or Jillian
- The AGM will be held at 8.30am on Saturday, 14th September at the club rooms. Committee nomination forms are available in the shop and any members are invited to nominate to join the committee
